**NOTICE OF HEARING ON APPEAL OF
PRELIMINARY NEGATIVE DECLARATION**

2014.0653E: Agreement for Disposal of San Francisco Municipal Solid Waste at Recology Hay Road Landfill in Solano County - The proposed project consists of an Agreement between the City of San Francisco and Recology to change the disposal site for San Francisco's municipal solid waste (MSW). Currently, Recology, the company that collects San Francisco's waste, transports San Francisco's MSW to the Altamont Landfill, located in eastern Alameda County, for disposal. San Francisco's existing agreement with Waste Management, Inc., operator of the Altamont Landfill, will expire around 2016. The proposed project consists of an Agreement to authorize the transportation of MSW from San Francisco to the existing Recology Hay Road Landfill located in unincorporated Solano County, at 6426 Hay Road, near State Route 113, southeast of Vacaville, where it would be disposed. San Francisco and Recology would enter into an Agreement for the transportation and disposal of five million tons of San Francisco's MSW at the Recology Hay Road Landfill. MSW would be transported by long haul semi-trucks, primarily from the Recology San Francisco transfer station located at 501 Tunnel Road, with several additional trucks hauling residual wastes for disposal from Recology's Recycle Central facility, located at Pier 96 in San Francisco, as is presently the case. At current rates of disposal, it is estimated that the Agreement would have a term of approximately 13 – 15 years. No new construction or changes in current Recology operations within San Francisco are proposed. No new construction or change in existing permits would be required at the Recology Hay Road Landfill in Solano County. The proposed project would correspond with the cessation of transport of San Francisco's MSW to Altamont Landfill. The Agreement between San Francisco and Recology to authorize the proposed change in disposal sites would need to be approved by the San Francisco Board of Supervisors. (Maltzer)
