PROJECT DESCRIPTION

A Draft Supplemental Environmental Impact Report (SEIR) to the Bicycle Plan EIR has been prepared by the San Francisco Planning Department in connection with the **Second Street Improvement Project** (proposed project). The proposed project is a refinement to the proposal for near-term improvement Project 2-1 analyzed in the 2009 Bicycle Plan EIR, certified by the San Francisco Planning Commission on June 25, 2009.

The proposed project would transform the corridor into a multi-modal corridor and improve safety and access for pedestrians, bicyclists and transit riders as well as drivers. The San Francisco Public Works (Public Works) would construct the following improvements along Second Street between Market and King streets: widen sidewalks between Harrison and Townsend streets; install one-way cycle track bicycle facilities in both directions on Second Street; install transit boarding islands at most transit stops along with planted medians; eliminate two channelized right-turn lanes from northbound Second Street at Harrison Street; install Americans with Disabilities Act-compliant curb ramps; plant street trees; install site furnishings (trash receptacles, bike racks, benches, and pedestrian lighting); and grind and repave the asphalt, curb-to-curb. The travel lanes along Second Street would generally be reduced from two to one in each direction, in order to install bicycle facilities; left turns would be restricted at most intersections and a pedestrian/bicycle phase would be implemented at all intersections along Second Street. In compliance with the San Francisco Complete Streets Policy (Public Works Code Section 2.4.13), Public Works would rehabilitate and replace aging sewer facilities along the project corridor, construct/install/relocate drainage facilities, and place overhead utilities underground on Second Street from Stillman to Townsend streets.

DRAFT SEIR: The Draft SEIR finds that implementation of the proposed project would lead to significant unavoidable project-level and cumulative impacts related to transportation and circulation (traffic and commercial loading). The Draft SEIR including a detailed project description is available for public review and comment on the Planning Department's website at <http://www.sf-planning.org/sfcegadocs>. The purpose of the public hearing is for the Planning Commission and Department staff to receive comments on the adequacy of the Draft SEIR. The Planning Commission will not respond to any of the comments or take action on the project at this hearing. Certification of the Final SEIR will take place at a later hearing. Contact the planner below if you wish to be on the mailing list for future notices.

Public comments on the Draft SEIR will be accepted from February 12 to 5:00 p.m. on March 30, 2015.

GENERAL INFORMATION ABOUT PROCEDURES

Members of the public are not required to provide personal identifying information when they communicate with the Commission or the Department. All written or oral communications, including submitted personal contact information, may be made available to the public for inspection and copying upon request and may appear on the Department's website or in other public documents.

Only commenters on the Draft SEIR will be permitted to file an appeal of the certification of the Final SEIR to the Board of Supervisors.

CDs and paper copies of the Draft SEIR are available at the Planning Information Center (PIC) counter on the first floor of 1660 Mission Street, San Francisco, and referenced materials are available for review at the Planning Department (call the planner listed above). Written comments should be addressed to Sarah B. Jones, Environmental Review Officer, San Francisco Planning Department, 1650 Mission Street, Suite 400, San Francisco, CA 94103, or emailed to sarah.b.jones@sfgov.org. Comments received at the public hearing and in writing will be responded to in a Draft SEIR Responses to Comment (RTC) document.
