Pursuant to the California Environmental Quality Act (CEQA), the Guidelines of the Secretary for Resources, and San Francisco requirements, this Notice of Exemption is transmitted to you for filing. At the end of the posting period, please return this Notice to the Staff Contact with a notation of the period it was posted.

Attached fee: $62 filing fee

PROJECT DESCRIPTION:

The project site, consisting of five parcels, is located between Howard and Natoma Streets, along Ninth Street, in the South of Market Neighborhood. The proposed project includes the following: 1) demolition of the existing gas station, fast food restaurant, car wash, and all other improvements onsite; 2) construction of a six-story, 122,900-square-foot mixed use building consisting of 104 dwelling units (19 studios, 36 one-bedroom units, and 49 two-bedroom units), as well as office (12,600 square feet) and restaurant/retail (1,250 square feet) uses; 3) construction of a four-story, 19,600-square-foot residential building consisting of 20 dwelling units (10 studios and 10 two-bedroom townhomes); and 4) construction of two pedestrian bridges that would connect the two buildings at the second floor. The two buildings would be separated by a 30-foot-wide pedestrian alley that would connect with Natoma & Howard Streets.

The 12,600 square feet of office space and 1,250 square feet of the proposed retail space would share a large ground floor space in the main building with frontage on both Howard Street and Ninth Street, but the 1,250 square feet of retail space would be located in a separate portion of the main building fronting Howard Street, with access provided via the pedestrian through-alley. The larger building that would
include the ground-floor commercial space would have six stories and would be 55-feet in height at its
tallest point, while the smaller building along the eastern boundary that would only include dwelling
units would have four stories and would be 45-feet in height. Common area open space for residents of
the project would total 9,520 sq. ft. The project's residential lobby entrance would be located at the
pedestrian alley between the two buildings that provide access to the units within the larger building and
the upper floors of the smaller building via two bridges at the second floor. The ground floor units within
the smaller building would have private stoop entrances that also face onto the pedestrian alley.

The proposed project would include a basement-level parking garage with 71 vehicle parking spaces,
eight car-share spaces, and three service vehicle spaces. The proposed project would also provide a total
of 188 Class 1 bicycle parking spaces, 31 Class 2 bicycle parking spaces, two showers, and 14 lockers.
Subject to review and approval by the San Francisco Municipal Transportation Agency (SFMTA), the
proposed project would also include sidewalk widening, a bulb-out, and a raised crosswalk.

Construction of the proposed project would occur over approximately 21 months. Construction
equipment to be used would include backhoes, excavators, and construction cranes. The entire project
site would be excavated to a depth of 15 feet to accommodate the foundation and the basement level. The
total amount of excavation for the project would be approximately 20,000 cubic yards (cy) of soil.

DETERMINATION:

The City and County of San Francisco decided to carry out or approve the project on March 2, 2017, when
the San Francisco Planning Commission granted a Conditional Use Authorization of a Planned Unit
Development and a Large Project Authorization to the 1298 Howard Street, LP. A copy of the
document(s) may be examined at 1650 Mission Street, Suite 400, San Francisco, CA, 94103 in file nos.

1. An Exemption from Environmental Review has been prepared pursuant to the provisions of
   CEQA under Sec. 21083.3; 15183 (Community Plan Exemption)

2. This project in its approved form has been determined to be exempt from environmental review
   because it is consistent with the Western SoMa Community Plan Area.
