PROJECT DESCRIPTION:

The approximately 13,263 square-foot project site is located on the southwest corner of the intersection of Lombard Street (Highway 101) and Pierce Street in the Marina neighborhood. The project site is currently vacant; a former gasoline service station and underground fuel storage tanks were removed in 2005. The proposed project would construct a new four-story, 40-foot-tall (excluding 10-foot-tall mechanical and stair penthouses and a 20-foot-tall elevator penthouse), 41,557-square-foot, mixed use building with 22 residential units over 2,585 square feet of ground-floor retail space. The residences would consist of four three-bedroom units, 13 two-bedroom units, and five one-bedroom units. The ground floor would also include lobby space and utility/mechanical areas and access to an at-and-below-grade parking garage that would accommodate 33 vehicles, 31 of which would use a parking stacker/lift system, and a bicycle storage room with 22 Class 1 bicycle spaces. The parking garage and residential building lobby would be accessible from Pierce Street. Two existing 24-foot-wide curb cuts would be removed adjacent to the project site, one on Lombard Street and one on Pierce Street. The proposed project would include a new approximately 9-foot-wide curb cut for the garage driveway on Pierce Street.
